---

Auto Beatmatching is easy to use. Just type in the genre and your song and hit Go! You'll be out of the beatmatching range in seconds. Experience the unique feature that lets you decide the final pitch and mixing. With this feature, you decide how much emphasis to give to the vocals, the drumming and the bass. Mix everything up. If you're looking for something special, try Mixshaping mode. Mixshaping is a solid technique for instrumental mixes. It allows you to use DJ styles for mixing. This is a sample - To purchase a license key, visit The Luminaries Shop The mission of the Luminaries Team is to change the musical world!
